Tall Jeans

BY INSEAM · 34″ TO 38″ WOMEN'S JEANS

Tall Jeans by Inseam helps tall women find jeans that actually reach, listing women's jeans by their real inseam length, from 34 to 38 inches, as each brand states it on its own product page.

AUDIENCE

Built for tall women who know their inseam but cannot filter by inseam across brands. Pages are built around how they shop: a specific length ("36 inch inseam jeans"), fit (plus-size tall) or style (tall flare, black, light wash).

BRANDS WE COVER

Amalli Talli, American Tall, Kimes Ranch, KanCan, Good American, Yoga Jeans and FRAME, plus long-inseam styles found through Zappos product data.
